

```
#include<stdio.h>
int main()
{
    int no;
    printf("\n Enter any number : ");
    scanf("%d",&no);
    if(no==0)
    {
        printf("\n Entered Number is Zero");
    }
    else if(no>0)
    {
        printf("\n Entered Number is Positive");
    }
    else
    {
        printf("\n Entered Number is Negative");
    }
    return 0;
}
```
